Journal of Fluid Mechanics **Volume 342 10 July 1997**

S. G. Mallinson, S. L. Gai & N. R. Mudford The interaction of a shock wave with a laminar boundary layer at a compression corner in high-enthalpy flows including real gas effects *page* 1

T. Y. Liao & D. D. Joseph Sidewall effects in the smoothing of an initial discontinuity of concentration 37

P. Atsavapranee & M. Gharib Structures in stratified plane mixing layers and the effects of cross-shear 53

E. Ramé On an approximate model for the shape of a liquid–air interface receding in a capillary tube 87

P. N. Shankar Three-dimensional eddy structure in a cylindrical container 97

M. Kiya, M. Shimizu & O. Mochizuki Sinusoidal forcing of a turbulent separation bubble 119

M. J. Cooker, P. D. Weidman & D. S. Bale Reflection of a high-amplitude solitary wave at a vertical wall 141

A. Cherhabili & U. Ehrenstein Finite-amplitude equilibrium states in plane Couette flow 159

C.-W. Wang, R. Jackson & S. Sundaresan Instabilities of fully developed rapid flow of a granular material in a channel 179

A. R. Champneys & M. D. Groves A global investigation of solitary-wave solutions to a two-parameter model for water waves 199

F. G. Jacobitz, S. Sarkar & C. W. Van Atta Direct numerical simulations of the turbulence evolution in a uniformly sheared and stably stratified flow 231

H. S. Shafi & R. A. Antonia Small-scale characteristics of a turbulent boundary layer over a rough wall 263

M. G. Braunsfurth, A. C. Skeldon, A. Juel, T. Mullin & D. S. Riley Free convection in liquid gallium 295

Y. Ju, H. Guo, K. Maruta & F. Liu On the extinction limit and flammability limit of non-adiabatic stretched methane–air premixed flames 315

J. R. Chasnov On the decay of inhomogeneous turbulence 335

F. J. Higuera Opposing mixed convection flow in a wall jet over a horizontal plate 355

S. E. Belcher & J. C. Vassilicos Breaking waves and the equilibrium range of wind-wave spectra 377

J.-M. Vanden-Broeck & J. B. Keller An axisymmetric free surface with a 120 degree angle along a circle 403
